A CHANCE FOR UNION

Mayor Hewitt Says He Would Not Oppose Andrew H. Green.

Even if Tammany Puts Him Up He'll Not Run Opposition.

But Yet the Politicians See Slight Prospects of Harmony.

Mayor Hewitt was at his deak bright and early to-day, but he was not in interviewing mood. He asked the newspaper men to let up on him.

THE EVENING WORLD representative told him that Tammany Hall had a list of candidates to select a nominee from, and the reporter mentioned the names of Sheriff Grant, Judge Dugro, Joseph J. O'Donohue, J. Edward Simmons, Roswell P. Flower and Andrew H. Green."

The Mayor thought for a few moments and then replied: "I have no judgment to pass upon any of

those gentlemen." When asked later by a reporter if he had any objection to Mr. Andrew H. Green as a candidate for Mayor, Mr. Hewitt became at once unusually interested, and looking up

"I am glad you put that question. If Mr.
Green was nominated I would not run against
him."

Even if nominated by Tammany Hall, was suggested.

"Ay, even if he were nominated by Tammany Hall."

"And your grounds."

"Frankly, I am constrained to say that Andrew H. Green possesses all the necessary qualifications to fill the office of Mayor of this great city with credit to himself and to the satisfaction of the taxpayers. It is unnecessary to say more than this."

It is semi-officially announced that Mayor Hewitt has declared to his immediate friends that he will be a candidate if either Grant, Dugro or O'Donohue receive the Wigwam nomination.

Mayo They say that they have not heard of any overtures from the County Democracy for some time. They do not deny that the County Democracy is anxious for harmony, but they do deny that there is any prospect of a union.

The Wigwam braves are boasting that President Cleveland is in favor of a fight on the county ticket. Their boasts are louder since the return of Commissioner Croker from Washington.

The Wigwamites from the Battery to the Bronx are getting in fighting trim. There is no mistake about it. The leaders know the feelings of their followers, and are convinced that a fight and a defeat would benefit the organization more than a union and a harmony victory.

There is some difference of opinion among the Republican district bosses over the Mayoraity question.

A majority of the bosses are in favor of nominating a straight county ticket with an acceptable and strong candidate for Mayor.

There are others, however, who wish to nominate a figure-head, with the object of trading him off for votes for Harrison.

Beveral prominent Republicans say that it will be difficult for the machine to get a truly good man to accept the Republican nomination if Mayor Hewitt is renominated by a citizens' meeting and indorsed by the County Democracy.

He said his brother had been troubled with rheumatism of the heart for some time. He left his home last Wednesday morning apparentlyin good health.

Their Bodies Unrecovered.

The bodies of the girl and the man who were drowned by the capsining of a rowboat in the Hudson Hiver resterday have not yet been recovered.

York on the steamer Cienroegos, or the ward line. He arrived here Aug. 24 and next day sailed for Paris on La Champagne, of the French line.

President Salomon's resignation was the result of one of Havti's peculiar revolutions. The people were incited to rebellion by stories of how Salomon was sending fabulous sums of money out of the island for his own use, and stories of deeds of violence committed by him were told.

On July 4 last the Chamber of Deputies was burned to the ground, and a week later the buildings of the Departments of War and Interior Affairs, the Court-House, the Government Printing Office and the house of the Bishop were destroyed by fire by the revolutionists.

Gen. Salomon hastily resigned. He was
permitted to go to Cuba on a British man-ofwar and came thence to New York as stated.

Baroness Saloman, the General's wife, is a
petite Frenchwoman, hence the going of the
party to Paris. They were accompanied by
Gen. A. S. Lafontant and wife, Mme.

is a citizen of the United States.

President Salomon left Hayti once before,
but was called back after a season of turmoil
and confusion there.

MR. WITHERS'S \$1,480 CHECK.

United States Senator Hearst Asks Police to Look for It.

Superintendent Murray issued a general alarm this morning notifying all banks in the city to stop payment on a check drawn by George W. Hearst and signed by David D. Withers for \$1,480.

In the notification to the various police precincts it was stated that the check was either lost or stolen.

The George W. Hearst is United State lenator Hearst, of California, who has been in town for the past two weeks, and Mr. Withers is the well-known horseman and member of the American Jockey Club. The check was on the Bank of the State of New York, and it is said that it was in settle-ment of a horse transaction recently com-

New York, and it is said that it was in settlement of a horse transaction recently completed between the two gentlemen.

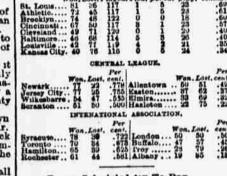

Senator Hearst had put his indorsement on the back of the paper, and it would be readily negotiable at any bank previous to the warning being given.

When an Evening World reporter called at the office of Mr. Withers, at 35 William street, he was informed by the young man in charge that Mr. Withers was in town on Saturday for about half an hour, and that he left for the Sheepshead Bay races, after which he went to his farm at Red Bank, N. J., He knew nothing of the loss of the check. At the bank the paying teller said that payment had been stopped.

At the Hoffman House Clerk Peacock said that Senstor Hearst left there a week ago for California, and is now probably in San Francisco.

Pretty Minute Rayon in Charged With Ir regularities in Her Accounts With Her Employers—She Laughed When Asked to Plend to the Charge in the Tombs Police

Another cashier has gone wrong. There is nothing remarkable in this statement, for it is a common and almost daily

occurrence. It is the cause which is assigned for the wrongdoing which renders the case of peculiar interest. Neither speculation nor gambling of any

nature whatever was responsible. Over indulgence in bonbons, a love of display in dress and a hankering for the latest novelties in gloves and shoes are said to be the causes which contributed to this fall. The cashier was a girl, Miss Mamie E. Raven, seventeen years of age, who resides at 52 Greenwich avenue with her widowed

Raven, seventeen years of age, who resides at 52 Greenwich avenus with her widowed mother and a younger sister.

For several months Miss Raven had been employed as bookkeeper and cashier for Stern & Schloss, manufacturers of bustles at 32 Howard street.

Four weeks ago she was discharged for irregularities in her accounts when a deficiency of over \$200 was discovered.

She was arrested Saturday afternoon by Detective-Sergt, Hanley, of Chief Inspector Byrnes's staff, and yesterday was arraigned in the Tombs Police Court, before Police Justice White, on a charge of forgery in the third degree.

The specific charge in the complaint was that on July 28 she paid Max Kopes, a salesman for her employers, his salary of \$15 and charged as paid the sum of \$30, appropriating the balance to her own uso.

Miss Raven is a pretty, pert and well-dressed girl, and when asked to plead laughingly asserted her innocence and claimed the charge in excess of the amount paid to be a mere clerical error.

Joseph Schloss, of the employing firm, who was the complainant, says that the trouble with Miss Raven's books was that there were too many of just such clerical errors.

She signed her statement in a bold, firm and rather masculine hand, and was bailed in \$1,000 by James Taylor, a coal dealer, of 402 West Twenty-ninth street.

Miss Raven is said to be a member of a church in Charles street, and bail was procured for her through her friends in the congregation and Sunday-school.

Prior to her connection with Stern & Schloss Miss Raven was employed in a similar capacity with a small dry-goods firm who recommended her. There are said to have been no irregularities in her accounts with her former employers.

ONE FATAL BLOW OVER THE HEART.

morning, in which George Fulljames, the well-known pugilist, was killed.

An autopsy showed beyond a doubt that his death was caused by the blow over his heart which he received from his unknown autagonist and which ruptured some of the smaller blood vessels, resulting in hemorrhage of the lungs.

A powerful blow planted over the heart is almost sure to result fatally.

Although several arrests have been made, the Coroner's jury which is investigating the affair failed to get anything out of its witnesses, and the man Barrett, who is said to have been "the unknown" whom Fulljames fought, is still at large.

The public is considerably stirred up over the affair, and blame the authorities for not showing more activity in Eursuing the lawbreakers, for they did not even hear of the fight until nearly two days after it had occurred and Fulljames had died.

Fulljames, who had been living for some time past at Winnipeg, was only visiting here, and the fight was an impromptu one. It is said that Fulljames was out of training at the time and in no condition to fight.

JACKSONVILLE, Fla., Sept. 24. -To-day's record will probably but the total number of yellow-fever cases since the scourgeifirst appeared here above 2,000. Dr. D. Echemendia, who has had much experience with yellow fever in Cuba as a surgeon in the Spanish army, is working a force of men all the time, fumigating a dozen houses each day. The vapors of sulphur, chloride of soda, alcohol and other appliances are noxious and stifling, but are fatal to the deadly microbe, and a stench is preferable to fever and death.

After a death by fever the bedding, furniture and every other article in the room of death is removed and burned, and the room s thoroughly fumigated by burning sulphur saturated in alcohol. This process is continued for two hours. The articles burned are paid for out of the relief fund, and amusing complications arise out of this latter

amusing complications arise out of this latter provision.

People put in extraordinary claims for these damages. One woman wanted \$100 for a pet parrot which she claimed had been suffocated by the vapors of the runnigators.

The rigid quarantine which has been generally adopted against Jacksonville by other cities and towns is the cause of many heartrending scenes here. To-day a lady who received news that her only child was dying in Charleston was told by the authorities that she could not go to its bedside, as no person from Jacksonville would be permitted to enter Charleston. Her grief was pitiable.

Two of the physicians and five nurses, who came from Northern points and are unacclimated, are very sick with yellow fever, while a number of the nurses from Southern cities, principally colored, having received their pay for one week's work, have neglected their patients since Saturday, having gone on a spree with their carnings. The Steam Yacht Adelaide Sunk by

A Misunderstanding of Signals Brought the Boats Together.

Capt. Montgomery and His Crew Saved in the Yacht's Life Boats.

It became known in this city this morning, that the steam yacht Adelaide had been sunk through a collision with the steamer City of Providence, of the Fall River line.

Capt. William Montgomery and his crew of seven men on the Adelaide were saved by the yacht's lifeboats.

The boats came together with a crash, bow on and the Adelaide's bow was completely carried away. Capt. Montgomery said a misunclerstanding of signal whistles caused the

understanding of signal whistles caused the collision.

A hole was stove in the Providence a few feet above her water mark, and temporary repairs had to be made before the steamer could proceed on her way.

The yacht sank in less than half an hour after the collision.

Lewis H. Livingston, of this city, was the owner of the Adelaide, which was a propeller, owner of the Adelaide, which was a propeller,

going through the Sound and warnings have been sent out to the westward bound Sound steamers.

The Adelaide was built by L. Towns. She is sunk in about twelve fathems of water.

No official report of the accident had been made by the master of the Adelaide to the steamboat inspectors at 1 r. m.

The Adelaide was inspected on July 25 and is registered in the books of the inspectors as a pleasure yacht of 46 gross tons. Alonzo B. Albin is named as the master and William Westlake the owner.

The Providence completed her run to Fall River, and it is said there that she can be repaired quickly enough not to interfere with her regular trips. Capt. Hammond lays upon the commander of the yacht all the blame for the accident.

Capt. Hammond says the yacht suddenly changed her course after the Providence had given the signal to pass to starboard, and that the Adelaide did not respond to the signal.

An attempt was made by sailors from the Providence to run the yacht ashore and prevent her sinking, but the Adelaide only turned around and around, making no headway and finally suuk before the trouble could be remedied.
